Sir:

In response to the "Notice to File Corrected Application Papers" mailed from the Patent and Trademark Office on June 24, 2004, submitted herewith are:

1. A substitute specification with line spacing in accordance with 37 C.F.R. 1.52(b) for the specification filed with this application on April 14, 2004; and
2. A copy of the "Notice to File Corrected Application Papers" requesting this substitution.

As required under 37 C.F.R. 1.125, applicant's undersigned counsel states that the substitute specification submitted herewith contains no new matter.

Further in this respect, please note that the only objectionable feature of the specification as filed was the line spacing. Consequently, it is respectfully urged that the requirement under Rules 121(b)(3)(iii) and 125 to file a marked up version of the substitute specification showing the increased separation between each line be waived.

In summary, applicant respectfully urges that the substitute specification submitted herewith replace the specification filed on April 14, 2004.

The Examiner is asked to telephone applicant's undersigned counsel at the number noted below if it will advance the progress of this case.

Respectfully submitted,

John P. Sinnott
